WordFlyers THE PASSPORT to learning and practising literacy skills

The activities in the WordFlyers: SkillBuilders apps enable students to **practise selected aspects of language** that underpin the development of knowledge, understandings and skills in strands of the Australian Curriculum: English.

Each year level app covers the same content, but each at an age-appropriate level.

The WordFlyers website **reinforces and further teaches** the app content and many other essential skills by more deeply examining these aspects of language **within the context of short, high-interest texts** that are presented in a range of Text Types and Forms.

Apps + Website = Literacy Success!
